

CONSTRUCTION NOTICE

Serving Californians Since 1929

Pipeline Upgrade Project @ State Route-57

What	Installation of 12” pipe underneath the SR-57 freeway via the jack and bore method as well as main replacements and water service installations in the surrounding area, near Nebraska Ave and Tafolla St, as well as Kansas Ave and Iowa Place.
When	Construction will commence beginning of March 2023 and conclude end of January 2024. Anticipated working hours will be from 8:00 AM to 5:00 PM.
Where	Installation of main pipeline will take place along Tafolla St, stretching from Orangethorpe Ave to Kansas Ave. Other main replacement installation activities will be underneath SR-57 freeway stretching from Nebraska Ave to Iowa Place.
What to Expect	Construction crews with backhoes, jack and bore equipment, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The water services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pickup will not be interrupted. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company’s Construction Inspector, Mr. David Espinoza, at (310) 738-3996. Please visit our website at https://www.gswater.com/post/placentia-capital-projects for periodic updates on the construction progress.
