

CONSTRUCTION NOTICE

Serving Californians Since 1929

Construct New Well

What	Destroy the existing water well at Golden State Water Company’s Baseline Plant. And drill and develop new water well.
When	Operations are expected to commence in October 5, 2020, with completion estimated at the end of January 2021 ⁽¹⁾ . Construction shall be limited to regular daytime hours Monday through Friday. However, there will be times during the construction period when around-the-clock (24 hours a day, 7 days a week) operations will be necessary.
Where	The Baseline Plant site is located at 636 East Baseline Road, in the City of San Dimas.
What to Expect	Construction crews with drilling rig, excavators, backhoes, dump trucks, crew trucks and other hand tools will be digging and modifying equipment within the plant site. Nearby streets will remain open to traffic during the construction period. The construction crews will make every effort to keep dust to a minimum. Noise barrier walls will be installed, but please expect an increased level of noise during the construction period..
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

(1) A second project to equip the new well will follow in 2021 thru 2022.

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
