

# CONSTRUCTION NOTICE

Serving Californians Since 1929

## Waalew Reservoir and Water Transmission Main

<b>What</b>	Construct a 0.3 Million Gallon Welded Steel Reservoir, 2,800 LF of 8 inch PVC waterline, 120 LF of jack and bore, and appurtenances.
<b>When</b>	Construction will commence in December 2020, with completion expected by late September, 2021. The working hours are from 7:00 am to 5:00 pm.
<b>Where</b>	The new Waalew Reservoir will be constructed in the foothills above Sunset Hills Memorial Park. The pipeline will be installed between the existing Valley Crest Reservoir and the proposed Wallew Reservoir in San Bernardino County, near the Town of Apple Valley.
<b>What to Expect</b>	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be constructing the reservoir and digging along the new pipeline alignment. Streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Some blasting of rock may occur. Weekly activities, such as trash pick-up, will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform final cleanup.
<b>Contacts</b>	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.

At Golden State Water Company, it has been all about water for more than 80 years. Our team of professionals delivers reliable, quality water and great service to customers in 75 communities across California.
