Serving Californians Since 1929

Cherry Plant: Replace Backwash Tank

What	Replace Filtration Backwash Storage Tank at Cherry Plant
When	Tank replacement work is scheduled to occur from May 3, 2022 through September 30, 2022, between 8:00 AM and 5:00 PM
Where	10941 Cherry Street in Los Alamitos, California.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks will be moving on and off the plant site. Contractor will be replacing the existing steel tank, and process and drain piping. During the phases of construction, you will hear general construction noise and heavy equipment operating during normal business hours. During construction, Golden State Water Company's driveway (south of 10931 Cherry St.) will be temporarily closed and fenced to accommodate placement of a temporary tank to keep plant processes running. During the demolition phase there will be some jackhammer and backhoe work, this will be when the most noise is expected. The streets will remain open to traffic during the construction period. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick up will not be interrupted.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company's Project Engineer, Ms. Theresa Wu at (714) 308-8496. Please visit our website at https://www.gswater.com/los-alamitos/infrastructure-projects/ for periodic updates on the construction progress.
