

CONSTRUCTION NOTICE

Serving Californians Since 1929

Install PRVs at Country Hills & Hideaway

What	Construct (2) Pressure Regulating Stations
When	Construction will commence early September 2022 to mid-November 2022. Construction will be Monday – Friday, from 8:00AM to 5:00PM.
Where	Install two pressure regulating valves and vaults: One will be installed at the corner of Country Hills and Skyline Drive; the second will be installed at the end of the cul-de-sac at Hideaway Drive.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick up will not be interrupted. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company’s Construction Inspector, Mr. Jose Rivera at (714) 264-5018. Please visit our website at https://www.gswater.com/placentia/infrastructure-projects/ for periodic updates on the construction progress.
