

CONSTRUCTION NOTICE

Globe Area Main Replacement Project

What	Replacement of existing water main with new 8" PVC water main and installation of water services, fire hydrants and fire services.
When	Construction activities will commence on May 1, 2017 with completion expected by the end of September 2017. The City of Culver City working hours are from 8:00 am to 5:00 pm. on residential streets and 9:00 a.m. to 3 p.m. on arterial streets.
Where	The new water pipeline will be installed in Globe Avenue from Washington Place to the alley south of Washington Blvd., Herbert Street from Bledsoe to Sawtelle Blvd., Albright from Washington Place to Washington Blvd., and Huntley Alley from Washington Blvd., to alley south of Washington Blvd., in Culver City.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.
