

CONSTRUCTION NOTICE

Serving Californians Since 1929

Farquhar Ave. Main Replacement

What	Installation 8-inch PVC pipe to replace existing, aging steel main. With replacement of the existing main, existing services and fire hydrants will also be replaced. Services for customers will be relocated in front of property.
When	Construction will commence on February 1, 2019 with completion expected by mid-April 2019. The city of Los Alamitos working hours in public right of way will be from 7:30 am to 5:00 pm or as required by city.
Where	Installation of 8-inch PVC main will be in Farquhar Ave, from Maple St. to Bloomfield St.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick up will not be interrupted. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.
