

Beryl Plant Demolition Project

What	The project is to demolish 30 FT Diameter X 24-FT High Bolted Steel Tank and Relocation of 8 FT X 12-FT Tank and the demolition of appurtenances, This project requires adding (16) New Services on H-Street and Rim Rock Road. The new services will be connected to 16” PVC and 6” Steel Pipelines on H-Street and Rim Rock Road.
When	Construction will commence on mid- September 2022 with completion expected by Mid-December 2022. The County of San Bernardino working hours are from 7:00 am to 5:00 pm.
Where	The demolition of tank will take place on 34574 H Street Barstow and new services will be installed on the both sides of H- Street and on North Side of Rim Rock Road. in the County of San Bernardino.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new services for the properties on H-Street and Rim Rock Road. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As the new services are being installed minor disruptions due to the shut-down in water services will happen. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the pipelines. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.
