

CONSTRUCTION NOTICE

Rehabilitation of Tanks & Plant Piping @ Larkridge Plant

What	Rehabilitation of tanks and plant piping at the Larkridge Plant including repairs and replacing appurtenances and recoating of the reservoir.
When	Construction will commence on June 25, 2018. Anticipate project completion by end of October, 2018. Working hours shall be 8:00AM to 5:00PM Monday through Friday.
Where	Rehab and recoating of both tanks will be done, as well as, plant piping improvements at the Larkridge Plant site located at 19762 Larkridge Dr.
What to Expect	Construction crews with backhoes, dump trucks, crew trucks and large construction equipment will be going in and out of the Plant Site. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the plant piping are completed crews will disinfect the main and reservoir. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main and reservoir. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final cleanup.
Contacts	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.

Golden State Water Company thanks you for your patience while we work to improve your water system.
