

CONSTRUCTION NOTICE

Installation of a 12-inch Ductile Iron Water Main on Sycamore Drive from Niles Street to Brower Street

| | |
|-----------------------|---|
| What | Install approximately <u>750 feet of 12" water pipeline</u> . The work will include connecting the pipe to all existing pipelines of intersections, new fire hydrants and new service lines. |
| When | Construction on the new pipeline is anticipated to start on 7/29/19 with an estimated completion date of 9/27/19 . The working hours are Monday through Friday from <u>7:00am to 3:30pm</u> . |
| Where | The new pipeline will be installed on Sycamore Drive from Niles Street to Brower Street, continue west on Brower Street, and ending near the intersection of Brower Street and Clover Street. |
| What to Expect | Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. The services will generally be installed using an air compressor and pneumatic boring tool. The streets will remain open to traffic during the construction period but traffic and parking may be restricted and access to driveways may be limited for short durations of time. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving. |
| Contacts | If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033. |

Golden State Water Company thanks you for your patience while we work to improve your water system.
