

More than \$2.5 Million scheduled to be invested in Morongo Valley

Golden State Water is committed to responsibly maintaining the local water infrastructure to ensure we can continue providing customers with premium water service. These investments protect the safety and reliability of the local water system.

Benefit to Customers

Below are two of the major projects planned for the Morongo Valley Customer Service Area in 2022. For additional project details, please visit www.GSWater.com/Morongo-Valley.

Project Name: Mojave Reservoir

Construction Summary Construction crews will work to install new 0.3 MG steel tank including reservoir piping, instrumentation, electrical and SCADA works to replace the existing old 0.1 MG bolted steel tank.

Project Rational This project is required to ensure the continued reliability and quality of service to local customers by replacing an existing old tank that has reached the end of its useful life.

Working Hours Monday through Friday | 7 a.m. – 4 p.m.

Anticipated Project Timeline August 2022 through December 2022

Project Name: Mojave Booster Station

Construction Summary Construction crews will work to construct a new booster station to replace the existing booster station; and install a new generator, instrumentation, electrical and SCADA works.

Project Rational This project is required to ensure the continued reliability and quality of service to local customers by replacing the existing old booster station that is reaching the end of its useful life.

Working Hours Monday through Friday | 7 a.m. – 4 p.m.

Anticipated Project Timeline August 2022 through December 2022

Companywide, an investment of more than \$18 million to replace old meters, services, safety equipment, etc. will be made throughout GSWC service areas. This investment is critical to protect the quality and reliability of water service.

Golden State Water also remains focused on investing to modernize the customer service experience with improved online and account management resources.
