

PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

May 10, 2023

Ronald K. Moore
Senior Regulatory Analyst
Golden State Water Company
630 East Foothill Blvd.
San Dimas, CA 91773

Dear Mr. Moore,

The Water Division of the California Public Utilities Commission has approved Golden State Water Company's Advice Letter No. 1896, filed on April 14, 2023, regarding Schedule 14.1 Stage 2 De-activation and Activate Stage 1 for Arden Cordova, Bay Point, Clearlake, Los Osos system, Santa Maria, R2 & R3.

Enclosed is a copy of the advice letter with an effective date of May 14, 2023 for the utility's files.

Please contact Jeremy Ho at JRY@cpuc.ca.gov or 415-703-1905, if you have any questions.

Thank you.

Enclosures

April 14, 2023

Advice Letter No. 1896-W

(U-133-W)

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Golden State Water Company (GSWC) hereby requests authority from the California Public Utilities Commission (Commission) to de-activate Stage 2, Mandatory Reduction Stage, in its Schedule No. 14.1, Water Shortage Contingency Plan, and move to a Stage 1, voluntary conservation in all of its Customer Service Areas (CSA) except Nipomo, Cypress Ridge and Edna Road Systems. GSWC requests that this advice letter become effective upon Commission review and remain in effect until modified or terminated by GSWC or the Commission.

Background

On April 29, 2022, GSWC filed Advice Letters 1879-W & 1880-W, requesting to implement Stage 2 of its Schedule No. 14.1, Water Shortage Contingency Plan in its Simi Valley and Claremont CSAs, effective June 1, 2022. Additionally, GSWC filed Advice Letter 1883-W, on May 27, 2022, to request to activate Stage 2, mandatory water conservation on all remaining CSAs, effective June 26, 2022.¹

Due to improved water supply conditions, on March 24, 2023, Governor Newsom issued a modified Executive Order N-5-23 to ease drought restrictions² but preserve smart water measures. The Executive Order:

- A voluntary 15% water conservation target, while continuing to encourage that Californians make conservation a way of life;
- No requirement that local water agencies implement level 2 of their drought contingency plans;
- Maintains the ban on wasteful water uses, such as watering ornamental grass on commercial properties;

¹ The Edna Road system already on Stage 2, as approved via Advice Letter 1669-W, effective 11/1/2016 and Cypress Ridge and Nipomo systems already on Stage 2, as approved via Advice Letter 1673-W, effective 12/1/2016.

² <https://www.gov.ca.gov/2023/03/24/governor-newsom-eases-drought-restrictions/>

- Preserves all current emergency orders focused on groundwater supply, where the effects of the multi-year drought continue to be devastating;
- Maintains orders focused on specific watersheds that have not benefited as much from recent rains, including the Klamath River and Colorado River basins, which both remain in drought;
- Retains a state of emergency for all 58 counties to allow for drought response and recovery efforts to continue.

Request

GSWC is requesting to deactivate Stage 2 mandatory conservation and activate Stage 1 voluntary conservation of its Schedule No. 14.1 for all of its CSAs, except the Nipomo, Cypress Ridge and Edna Road systems.

The Nipomo, Cypress Ridge and Edna Road systems will remain on Stage 2 conservation and will continue to be assessed surcharges in accordance with Schedule No. 14.1.

Due to local impacted water supply conditions in the Nipomo Mesa Management Area (NMMA), the Key Well Index remains within a Severe Water Shortage Condition, thereby requiring a Stage IV NMMA Water Shortage Response which triggers a 50% reduction in groundwater production from neighboring water agencies and county agencies across the Nipomo Mesa including GSWC's Nipomo and Cypress Ridge Water Systems.

Local water levels in the San Luis Obispo Valley Groundwater Basin (SLOVGB), which is a Sustainable Groundwater Management Act high priority basin, serving GSWC's Edna Road System, have not improved due to regional demand on groundwater and many years of below normal precipitation. While the current winter has brought historic precipitation to this area, it remains to be seen how this has affected local groundwater levels. Due to the continual long-term decline in water basin levels additional conservation efforts are still needed by all customers in the Edna Road System.

Customer Outreach and Noticing

GSWC will notify its customers of the request to move from Stage 2 to Stage 1 within Schedule No. 14.1, through a bill message and by posting information on its website.

Effective Date

Pursuant to GSWC's Schedule No. 14.1, Special Condition 2, GSWC is filing this advice letter as Tier 2 and is requesting that this filing become effective on the May 14, 2023.

Response or Protest

Anyone may submit a response or protest for this Advice Letter (“AL”). When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

WD must receive a response or protest via email (**or** postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

The addresses for submitting a response or protest are:

Email Address:

Water.Division@cpuc.ca.gov

Mailing Address:

CA Public Utilities Commission
Division of Water and Audits
505 Van Ness Avenue
San Francisco, CA 94102

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy of the protest to Golden State Water Company at:

Email Address:
regulatoryaffairs@gswater.com

Mailing Address:
Golden State Water Company
Attn: Gladys Estrada
630 East Foothill Blvd.
San Dimas, CA 91773

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform DWA, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies

The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

Sincerely,

/s/ Gladys Estrada

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

EXECUTIVE ORDER N-5-23

WHEREAS on April 21, 2021, May 10, 2021, July 8, 2021, and October 19, 2021, I proclaimed States of Emergency to exist due to drought conditions; and

WHEREAS the multi-year nature of the current drought, which began three years after the record-setting drought of 2012-2016, continues to have significant, immediate impacts on communities across California with vulnerable water supplies, farms that rely on irrigation to grow food and fiber, and fish and wildlife that rely on stream flows and cool water; and

WHEREAS the March 3, 2023, snow survey conducted by the Department of Water Resources and partner agencies found that most regions of the Sierra Nevada are above average for snow water content, and some regions are nearing record amounts of snow, and snow and rain has fallen across many regions of the state since then, with more precipitation forecasted; and

WHEREAS improved conditions have helped rehabilitate surface water supplies, but have not abated the severe drought conditions that remain in some parts of the State, including the Klamath River basin and the Colorado River basin, and many groundwater basins throughout the State remain depleted from overreliance and successive multi-year droughts; and

WHEREAS continued action by the State is needed to address ongoing consequences of the drought emergency, including groundwater supply shortages, domestic well failures, and drought-related harm to native fishes in the Klamath River and Clear Lake watersheds; and

WHEREAS the drought emergency has required a dynamic and flexible response from the State, and several provisions in my prior Proclamations and Orders have been terminated or superseded already, specifically Paragraphs 4 and 8 of my State of Emergency Proclamation dated April 21, 2021, Paragraphs 2, 4, and 7 of my State of Emergency Proclamation dated May 10, 2021, Paragraphs 3, 4, 5, 6, and 10 of my State of Emergency Proclamation dated July 8, 2021, and Paragraph 9 of Executive Order N-7-22; and

WHEREAS improved conditions warrant an even more targeted State response to the ongoing drought emergency and certain provisions in my State of Emergency Proclamations dated April 21, 2021, May 10, 2021, July 8, 2021, and October 19, 2021, and in Executive Orders N-10-21, N-7-22, and N-3-23 provide authority that is no longer needed to mitigate the effects of the drought conditions or direct actions by state agencies, departments, and boards that have already been completed; and

WHEREAS notwithstanding the rescission of certain emergency authorities for emergency drinking water action, state agencies have existing legal authority and funding to continue expedited work to advance the human right to water, and state agencies will continue all ongoing drought resilience planning work, including through coordination with local agencies and tribes; and

WHEREAS next winter's hydrology is uncertain and the most efficient way to preserve the State's improved surface water supplies is for Californians to continue their ongoing efforts to make conservation a way of life; and

WHEREAS to protect public health and safety, it is critical the State take certain immediate actions without undue delay to prepare for and mitigate the effects of the drought conditions, and under Government Code section 8571, I find that strict compliance with various statutes and regulations specified in this Order would prevent, hinder, or delay the mitigation of the effects of the drought conditions.

NOW, THEREFORE, I, GAVIN NEWSOM, Governor of the State of California, in accordance with the authority vested in me by the State Constitution and statutes, including the California Emergency Services Act, and in particular, Government Code sections 8567, 8571, and 8627, do hereby issue the following Order to become effective immediately:

IT IS HEREBY ORDERED THAT:

1. The orders and provisions contained in my State of Emergency Proclamations dated April 21, 2021, May 10, 2021, July 8, 2021, and October 19, 2021, and Executive Orders N-7-22 (March 28, 2022), N-3-23 (February 13, 2023), and N-4-23 (March 10, 2023), remain in full force and effect, except as modified by those Proclamations and Orders and herein. State agencies shall continue to implement all directions from those Proclamations and Orders and accelerate implementation where feasible.
2. The following provisions of my State of Emergency Proclamation dated April 21, 2021, are terminated:
 - a. Paragraph 2;
 - b. Paragraphs 5-7; and
 - c. Paragraphs 9-14.
3. The following provisions of my State of Emergency Proclamation dated May 10, 2021, are terminated:
 - a. Paragraph 1;
 - b. Paragraph 3;
 - c. Paragraph 5; and
 - d. Paragraphs 9-10.
4. The following provisions of my State of Emergency Proclamation dated July 8, 2021, are terminated:
 - a. Paragraph 2;
 - b. Paragraphs 7-8, except those portions of paragraph 7 withdrawing provisions of prior orders;
 - c. Paragraphs 11-12.

5. The following provisions of my State of Emergency Proclamation dated October 19, 2021, are terminated:
 - a. Paragraph 2;
 - b. Paragraphs 4-5;
 - c. Paragraph 8; and
 - d. Paragraph 10.

6. The following provisions of Executive Order N-10-21 are terminated:
 - a. Paragraph 1; and
 - b. Paragraph 3

7. The following provisions of Executive Order N-7-22 are terminated:
 - a. Paragraphs 1-3;
 - b. Paragraph 6; and
 - c. Paragraphs 14-15.

8. The following provisions of Executive Order N-3-23 are terminated:
 - a. Paragraph 1; and
 - b. Paragraph 3, except those portions of the paragraph withdrawing provisions of prior orders.

9. Paragraph 6 of my State of Emergency Proclamation dated May 10, 2021, and Paragraph 9 of my State of Emergency Proclamation dated July 8, 2021, are withdrawn and replaced with the following text:

To ensure critical instream flows for species protection in the Klamath River and Clear Lake watersheds, the State Water Resources Control Board (Water Board) and Department of Fish and Wildlife shall evaluate the minimum instream flows and other actions needed to protect salmon, steelhead, the Clear Lake Hitch, and other native fishes in critical streams systems in these watersheds and work with water users, tribes, and other parties on voluntary measures to implement those actions. To the extent voluntary actions are not sufficient, the Water Board, in coordination with the Department of Fish and Wildlife, shall consider emergency regulations to establish minimum instream flows to mitigate the effects of the drought conditions. For purposes of state agencies carrying out or approving any actions contemplated by this paragraph, Public Resources Code, Division 13 (commencing with Section 21000) and regulations adopted pursuant to that Division are suspended. Nothing in this Paragraph affects or limits the validity of actions already taken in the Klamath and Clear Lake watersheds or ongoing under Paragraph 6 of my State of Emergency Proclamation dated May 10, 2021, or Paragraph 9 of my State of Emergency Proclamation dated July 8, 2021.

IT IS FURTHER ORDERED that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given of this Order.

This Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 24th day of March 2023.

GAVIN NEWSOM
Governor of California
