PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102-3298

September 3, 2024

Ronald K. Moore
Senior Regulatory Analyst
Golden State Water Company
630 East Foothill Blvd.
San Dimas, CA 91773

Dear Mr. Moore,

The Water Division of the California Public Utilities Commission has approved Golden State Water Company's Advice Letter No. 1946, filed on August 1, 2024, authorizing the update to Rule 16, page 2 & 4 regarding request for new service connections for an Accessory Dwelling Unit (ADU) and add Form No. 1 to Sample Forms.

Enclosed are copies of the following revised tariff sheets, effective August 31, 2024, for the utility's files:

P.U.C.	
Sheet No.	Title of Sheet
9617-W	Rule No. 16 Service Connections, Meters and Customer's Facilities, Page 2
9618-W	Rule No. 16 Service Connections, Meters and Customer's Facilities, Page 4
9619-W	Form No. 1 Application For New/Upgrade Service or Accessory Dwelling Unit (ADU) – 2" and Below
9620-W	Table of Contents, Page 7
9621-W	Table of Contents, Page 6
9622-W	Table of Contents, Page 1

Please contact Alex Pineda at Alex.Pineda@cpuc.ca.gov, if you have any questions.

Thank you.

Advice Letter No. 1946-W

(U 133 W)

To the California Public Utilities Commission:

Golden State Water Company (GSWC) hereby transmits this Tier 2 Advice Letter (AL) requesting authority to change the following tariff sheets applicable to its water operations:

<u>CPUC Sheet No</u>	<u>Title of Sheet</u>	<u>Canceling CPUC Sheet No.</u>
Revised No. 9617-W	Rule No. 16 Service Connections, Meters and Customer’s Facilities, Page 2	Revised No. 9092-W
Revised No. 9618-W	Rule No. 16 Service Connections, Meters and Customer’s Facilities, Page 4	Revised No. 9094-W
Original No. 9619-W	Form No. 1 Application For New/Upgrade Service or Accessory Dwelling Unit (ADU) - 2” and Below	
Original No. 9620-W	Table of Contents, Page 7	
Revised No. 9621-W	Table of Contents, Page 6	Revised No. 9564-W
Revised No. 9622-W	Table of Contents, Page 1	Revised No. 9616-W

GSWC requests to update its Rule No. 16, Sections A.2.a. and B.1., to clarify the language on costs for new service connection requests related to the addition of an Accessory Dwelling Unit (ADU). In addition, GSWC requests to add a new Form to its Sample Forms.

Background

In response to the statewide housing crisis, the Legislature recently adopted certain statutory changes intended to streamline the permitting and construction of ADUs or granny flats on existing residential properties¹.

¹ Senate Bill (SB) 1069, Assembly Bill (AB) 2299, AB2406, AB68, AB881, SB13, AB3182.

The new state ADU laws now provide that a qualified ADU is not to be considered new residential use when calculating water connection fees or capacity charges for the utilities, including water and sewer service, unless the ADU was constructed with a new single-family dwelling². The intent behind these restrictions is to classify most ADUs as ministerial land use projects that do not involve a change in land use.

This interpretation is consistent with the State's policy to encourage the development of ADUs to address California's housing crisis. The Legislature has clarified that ADUs are an essential component of California's housing supply.

Request

GSWC requests to update Rule No. 16, Sections A.2.a and B.1., to clarify the language regarding the charge for a new water service connection made at the request and for the convenience of the customer where additional connections are requested because of the addition of an ADU on the same parcel, lot or division of land when water service has already been received. Adding the proposed language to Rule No. 16, will clarify and minimize any questions or concerns from customers regarding the cost for a new service connection when adding an ADU.

Additionally, GSWC requests to make changes to its Sample Forms by adding sample Form No. 1, Application For New/Upgrade Service or Accessory Dwelling Unit (ADU) - 2" and Below. The form has been updated to include ADU information and is used by customers to request installation of a new/upgrade service connection or addition of a service connection for an ADU at an existing customer's property. GSWC's request in this advice letter is consistent with Standard Practice U-15-W³.

Effective Date

GSWC is requesting that this filing become effective on August 31, 2024.

Response or Protest

Anyone may respond to or protest this advice letter (AL). When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;

² AB-3182, Section 3,(f)(2), p.6

³ Section 8; Miscellaneous Forms. The following forms, if used must be included in the tariff book: Application for Water Service, Application for Change in Water Service, Portable Meter Deposit, Late Notice, Service Termination Notice, Closing Bill, Deposit Form, and any other forms or contracts the utility requires customers to sign.

2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division (WD) within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

California Public Utilities Commission
Water Division
505 Van Ness Avenue
San Francisco, CA 94102
E-mail: Water.Division@cpuc.ca.gov

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy by mail (or e-mail) to GSWC at the following address:

Golden State Water Company
Attn: Gladys Estrada
630 East Foothill Blvd.
San Dimas, CA 91773
E-mail: regulatoryaffairs@gswater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform WD, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Replies

The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL. The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with General Order No. 96-B.

Sincerely,

/s/ Gladys Estrada

Rule No. 16
Service Connections, Meters, And Customer's Facilities

2. Customer's Responsibility (Cont'd)
a. Condition Precedent to Receiving Service (Cont'd)

- (4) **Santa Maria Customer Service Area only:** Applicants requesting a new service connection, a new water meter or an increase in the size of their existing service connection and/or existing water meter resulting in increased demand within the Santa Maria Customer Service Area, as defined on the Service Area Maps, must provide a source of supplemental water to offset the increased demand, pursuant to the Court adopted Stipulation in Santa Maria Valley Water Conservation District v. City of Santa Maria, et al. (and related actions), Lead Case No. CV770214, Superior Court of the State of California, County of Santa Clara, in January 2008 and Commission Decision No. 13-05-011. Where and when available, applicants may remit payment to a third party public agency a water resource demand offset fee in lieu of providing a source of supplemental water, provided such fee fully offsets the cost, and results in the dedication to GSWC, of a source of supplemental water sufficient to meet the water demands of the service requested. (T)

The condition will not apply if one (1) the applicant is not an existing Golden State Water Company customer and provides Golden State Water company a final Can and Will Serve Letter and/or recorded land use entitlement demonstrating a prior obligation to serve the parcel with water service, or two (2) the applicant is an existing customer (with an existing connection, water meter, and service agreement) and all of the following criteria are satisfied:

- a. The new dwelling is authorized under applicable state and/or local Accessory Dwelling Unit ("ADU") regulations, as they may be amended from time to time.
- b. The new dwelling (and/or request land use entitlement) only requires a ministerial land use permit or other form of land use entitlement.
- c. The applicant currently has one (1) service line/connection of 1-inch or less.
- d. Water service to both the existing dwelling structure and the proposed ADU can be provided with one (1), 1-inch service line/connection or less.
- (5) The Customer shall provide satisfactory evidence that service will be for a building of a permanent nature, and must also provide a plot plan of the permitted structure to which service will be provided. (N)

Rule No. 16
Service Connections, Meters, And Customer's Facilities

B. Services

1. Charges for Service Connections

Except as provided in subparagraphs (a), (b), (c) or (d) below, the utility shall make no charge to the customer for making a service connection except in case of connections for private fire protection service, connections for temporary service, changes made at the request and for the convenience of the customer, where additional connections are requested because of the addition of an Accessory Dwelling Unit (ADU) or divisions of land ownership when the land, parcel/lot, before division was receiving service, and as otherwise provided in the utility's main extension rules. (T)

a. Individual Customer Connection Fee. A Class A utility district or subsidiary serving 2,000 or fewer connections, may accept connection fees from individual customers as Contributions (as defined in Rule 15, Section E) calculated pursuant to the Commission's Connection Fee Data Form (or equivalent) contained in the Utility's tariffs (including a collection of an Income Tax Component of Contribution ["ITCC"] [also known as a "tax gross-up"] pursuant to Rule 15).

b. In lieu of paying a connection fee, an applicant for a service connection may retain a licensed contractor, qualified in the judgment of the utility, to install the service connection. Cost to the Utility of inspection and supervision of the installation, including an ITCC pursuant to Rule 15, shall be paid by the applicant. The applicant shall provide the utility with a statement of actual construction cost in reasonable detail. The amount shall be treated as a Contribution to the Utility. The installation shall be in accordance with plans and specifications of the Utility.

c. Individual Customer Facilities Fee. A Class A utility district or subsidiary serving 2,000 or fewer connections, may accept from individual customers amounts in contribution as a facilities fee calculated pursuant to tariffs approved by the Commission (including a collection of an ITCC pursuant to Rule 15).

CROSS-CONNECTION CONTROL CHECKLIST FOR NEW WATER SERVICE

Applicant's Name:		
Mailing Address:		
City:	State:	Zip Code:
Telephone No:	Email Address:	
Contact Name (if different from Applicant):		
Telephone No:	Email Address:	

Water Use Survey:

Type of Facility: <input type="checkbox"/> Residential <input type="checkbox"/> Commercial <input type="checkbox"/> Industrial <input type="checkbox"/> Multi-Story Building	Height or No. Stories
--	-----------------------

What type of business will be at this location?	
(If the kind of business has not yet been determined, a review for appropriate backflow protection will be required prior to the activation of the service, upon determination of the business activities.)	

For Domestic and/or Dedicated Irrigation Services, is there or will there be:

Notes or comments: _____

Yes	No	
		any equipment that uses water for cooling, heating, or recirculation (i.e. cooling tower or steam boiler?)
		any aspirators on site?
		any chemicals used or stored on site?
		any water wells or booster pumps on site?
		reclaimed/recycled water on site?
		any water storage tanks or reservoirs on site?
		a pool, spa, decorative pond, or fountain?
		facilities for pumping, injecting, or spreading fertilizers, pesticides or other substances?
		sewage lift stations or gray water systems?

For All Fire Services, will:

Yes	No	
		the fire system be looped with water supplied by two or more fire services that are inter-connected?
		the fire system contains any chemicals, such as antifreeze or rust inhibitors?
		the facility has hydrants on site, stand pipes or pumper connections?
		there be any pump onsite for the fire system?
		the fire system also be supplied by an auxiliary source of water (i.e. pond, reservoir, storage tank)?
		the fire system be dual use (domestic and fire)?

Residential Dual Use Service (Domestic and Fire Sprinklers):

Notes or comments: _____

Yes	No	
		Will the fire service be a flow-through system (connected at the end of the system to a point of use such as a toilet, dishwasher, or other fixture to prevent water from becoming stagnant)?
		If the fire system is a closed system (not flow-through), will the fire system be construction of material certified to NSF/NASI standard 61 (marked NSF-61 or NSF-pw)? If yes, what will the primary material be? _

Note: Answering YES to either of the Dual-Use questions above may trigger an exemption to the requirements for backflow protection for residential dual use applications. For details or questions regarding the Cross-Connection Control Checklist for New Water Service, please contact the Water Quality Department at waterquality@gswater.com.

All required backflow assemblies will be installed within 5 feet of the point of connection per GSWC's standards. Any deviation from this requires approval from GSWC's Water Quality Department.
