

Proactive investments in system maintenance and new infrastructure are designed to *ensure the safety and reliability of your water system.*

The rates adopted for 2025-2027 will provide customers with long-term value by investing more than **\$16 million** in proactive capital investments and maintenance of local water infrastructure essential to the delivery and treatment of reliable, quality water.

Culver City Customer Service Area Capital Improvements, 2024-2026

Investments in the Culver City Service Area include but are not limited to constructing a new MWD interconnection and an emergency interconnection and transmission pipeline to improve water supply reliability; replacing aging water mains, meters, and pumps; and systemwide technology that monitors and controls the water system. As part of our commitment to reliability and public safety, Golden State Water proactively invests in upgrading and maintaining its fire hydrants.

Our proactive investments to replace and protect your water infrastructure system:

Ensures the safety and dependability of the local water system.

Protects the environment by reducing the company's carbon footprint and its energy demands.

Upholds the fundamental right of every Californian to access safe, clean and affordable water.
