

## Installation of New Water Mains

Yale Ave., 1<sup>st</sup> to Harrison

<b>What</b>	Replacement of existing cast iron mains with new 8" PVC mains and installation of new water services and fire hydrants.
<b>When</b>	Construction is expected to commence on June 6, 2017 with completion expected by mid-July 2017. The City of Claremont permitted working hours are from 10:30PM to 6AM on Yale Ave & 10:30PM to 5AM on Second St., Sunday night through Thursday night.  Streets and parking areas will be open to traffic during non-working hours. Yale Ave. will be open to traffic at 6AM each morning & Second St. will be open to traffic between Harvard Ave. and Indian Hill Blvd. at 5AM each morning.
<b>Where</b>	The new pipeline will be installed along Yale Avenue, from First Street to Harrison Avenue & along Second Street, from Indian Hill Blvd. to the alley approximately 200ft east of Yale Ave.
<b>What to Expect</b>	Construction crews with backhoes, dump trucks, crew trucks and hand tools will be digging along the new pipeline alignment. Full street closures, including parking areas, will be in effect on Yale Ave. and Second St. during construction working hours. The construction crews will make every effort to keep dust to a minimum. Please expect an increased level of noise during the construction period. Weekly activities such as trash pick-up will not be interrupted. As sections of the new main are completed, crews will disinfect the main. This step is necessary to protect public health and to ensure compliance with the Waterworks Standards. Following the disinfection period, crews will flush the chlorinated water and any construction related sediment from the main. Crews will dechlorinate the water before discharge. Generally, as underground activities are completed the crews will progress to the next underground sections and come back near the end of the project to perform landscape and hardscape restoration as well as perform final street paving.
<b>Contacts</b>	If you have any questions or concerns about the construction activities for this project, please call the Golden State Water Company Customer Service Center at (800) 999-4033.
