

Proactive investments in system maintenance and new infrastructure are designed to *ensure the safety and reliability of your water system.*

The rates adopted for 2025-2027 will provide customers with long-term value by investing more than **\$6 million** in proactive capital investments and maintenance of local water infrastructure essential to the delivery and treatment of reliable, quality water.

Bay Point Customer Service Area *Capital Improvements, 2024-2026*

Investments in the Bay Point Service Area include but are not limited to, a new well essential to the delivery of reliably clean water, investment in water supply, distribution improvements, new pumping plant equipment, replacement of aging water mains, equipment for pipeline repair and replacement, analysis of the service area's aging water infrastructure, and a feasibility study for the use of recycled water. As part of our commitment to reliability and public safety, Golden State Water proactively invests in upgrading and maintaining its fire hydrants.

Our proactive investments to replace and protect your water infrastructure system:

Ensures the safety and dependability of the local water system.

Protects the environment by reducing the company's carbon footprint and its energy demands.

Upholds the fundamental right of every Californian to access safe, clean and affordable water.
