

# Proactive investments in system maintenance and new infrastructure are designed to *ensure the safety and reliability of your water system.*

The rates adopted for 2025-2027 will provide customers with long-term value by investing more than **\$12 million** in proactive capital investments and maintenance of local water infrastructure essential to the delivery and treatment of reliable, quality water.

## Los Alamitos Customer Service Area Capital Improvements, 2024-2026

Investments in the Los Alamitos Service Area include but are not limited to upgrading water facilities and treatment plants to improve water supply reliability, upgrading water distribution infrastructure, the replacement of aging water infrastructure including water mains, meters, pumping equipment, water purification, structures, and safety equipment to reduce the dependence on the electrical grid during catastrophic events. As part of our commitment to reliability and public safety, Golden State Water proactively invests in upgrading and maintaining its fire hydrants.

### Our proactive investments to replace and protect your water infrastructure system:

Ensures the safety and dependability of the local water system.

Protects the environment by reducing the company's carbon footprint and its energy demands.

Upholds the fundamental right of every Californian to access safe, clean and affordable water.
